ABOUT ME

iOS Software Engineer with strong experience in building scalable, reliable and user-focused mobile products. Worked across startups and multi-app ecosystems, developing modular architectures and owning features end-to-end from early versions to reusable SDK modules.
Focused on product impact, clean architecture and performance. Interested in fintech, digital assets, and how AI improves development workflows.

CORE SKILLS

- Swift, SwiftUI, UIKit
- Modular SDK Architecture
- Clean Architecture, MVVM
- SPM, Git, CI/CD
- Keychain, Biometrics
- Performance & UX
- Fintech & Crypto
- AI-assisted workflows

EXPERIENCE

Kapital Bank — Shared SDK Ecosystem (Birmarket · Birbank · M10)
iOS Software Engineer · Feb 2025 – Present · Remote, Kyiv
- Owner of Premium Subscription module (UIKit → SwiftUI)
- Extracted module into shared SDK (multi-brand theming, localisation)
- Delivered reusable SwiftUI components via SPM
- Added Clean Architecture, tests, UI automation

Umico / Birmarket — Super App / Marketplace
iOS Software Engineer · Apr 2022 – Feb 2025 · Remote, Kyiv
- Worked on Premium Subscription area → later moved to shared SDK
- Participated in monolith → SPM modularisation
- Migrated key flows to SwiftUI, optimised networking
- Used Firebase Remote Config & analytics

Drinkit — Coffee Ordering App (Dodo Engineering)
iOS Software Engineer · 2020 – 2022 · Remote, Kyiv
- Built ordering flow with drink customisation
- Apple Pay + loyalty logic
- Order status tracking via reliable polling
- MVVM-C architecture

Alchemy — Digital Assets & Precious Metals Platform
iOS Software Engineer · 2022 · Remote
- Physical gold purchases via blockchain-backed APIs
- Onboarding, wallet, KYC, secure storage
- Stripe, AWS Cognito

Earlier Experience (abridged)
- PlayHera — gaming tournaments
- Broker tools, online stores, 3D medical planner
- Tap4Parking, marketing/news apps
