

Max Vilchevskiy

Senior iOS Engineer

Kyiv, Ukraine · Remote · vil4max@gmail.com · vil4max.github.io · linkedin.com/in/vil4max · github.com/vil4max

Summary

Senior iOS product engineer with 12+ years of experience building consumer-facing applications. Recent work spans marketplace and loyalty products, shared iOS SDKs, subscription features, iOS analytics infrastructure, and realtime voice AI R&D. Owned Premium Subscription and reusable SDK components at Birmarket, shipped Drinkit from MVP to the App Store as part of a small iOS product team, and worked with RxSwift in a production esports application. Strong in Swift, UIKit/SwiftUI, concurrency, modular iOS architecture, and realtime client flows.

Skills

Swift · SwiftUI · UIKit · Objective-C · watchOS · Swift Concurrency · async/await · Combine · RxSwift

Modular architecture · SDK design · REST · URLSession · WebSockets · AVFoundation · AVAudioEngine · Core Data · SwiftData · Keychain · XCTest

English: Intermediate (comfortable with technical calls)

Experience

Senior iOS Engineer · GlobalLogic

Jan 2026 – Jun 2026

Apple Watch Voice AI — R&D project

- Built watchOS voice conversation flows and worked on an iPhone relay for realtime WebSocket/audio communication.
- Integrated watchOS/iPhone communication and audio handling under watchOS runtime and TestFlight constraints.
- Contributed iOS engineering feedback while beta-testing VelocityAI through a sample product cycle from idea to release.

Swift · SwiftUI · WatchConnectivity · WebSockets · AVFoundation · AVAudioEngine · Swift Concurrency

Senior iOS Engineer · PASHA Holding (Birmarket)

Apr 2022 – Jan 2026

Birmarket — online marketplace & loyalty

- Owned Premium Subscription on iOS and a shared Premium Subscription SDK with per-host configuration across multiple host applications.
- Designed and implemented a unified analytics API in the loyalty SDK, routing events to six providers including Firebase, AppsFlyer, Amplitude, Mixpanel, PostHog, and Sentry.
- Contributed to consumer marketplace flows across catalog, loyalty, and ordering in a product with 500,000+ SKUs and 900+ pickup points.

Swift · SwiftUI/UIKit · SPM · Swift Concurrency · Combine

iOS Engineer · Dodo Brands (Drinkit)

Feb 2020 – Feb 2022

Drinkit — consumer coffee ordering app

- Shipped Drinkit from MVP to the App Store as part of a small iOS product team.
- Implemented consumer ordering flows including pre-order, customization, Apple Pay with loyalty, and live order tracking over WebSockets with polling fallback.

Swift · UIKit · Apple Pay · PassKit · AVFoundation

iOS Developer · SOLVE

Jan 2019 – Feb 2020

PLAYHERA — esports & gaming tournaments

- Built team creation and management flows for a production esports application.
- Worked commercially with RxSwift in an existing UIKit codebase, implementing and maintaining reactive feature flows.

Swift · UIKit · RxSwift · REST

Earlier iOS experience

2013–2018 — Product and client iOS development across multiple domains. Full career history available in portfolio.
