

Max Vilchevskiy

Kyiv, Ukraine · Remote

Senior iOS Engineer

vil4max@gmail.com · linkedin.com/in/vil4max · github.com/vil4max · vil4max.github.io · @vil4max

Summary

Senior iOS product engineer with 12+ years of experience building consumer-facing applications. Recent work spans marketplace and loyalty products, shared iOS SDKs, subscription features, product analytics infrastructure, and realtime voice AI R&D. Owned iOS features and reusable SDK components at Birmarket, shipped Drinkit from MVP to the App Store in a three-person iOS team, and worked with RxSwift in a production esports application. Strong in Swift, UIKit/SwiftUI, concurrency, modular iOS architecture, and realtime client flows.

Skills

iOS: Swift · SwiftUI · UIKit · Objective-C · watchOS

Architecture & concurrency: Modular architecture · SDK design · Swift Concurrency · async/await · Combine · RxSwift

Networking & realtime: REST · URLSession · WebSockets · realtime client flows

Product engineering: B2C consumer apps · marketplaces · loyalty & subscriptions · payments · analytics infrastructure

Media & device: AVFoundation · AVAudioEngine · audio flows · Apple platform integrations

Data & quality: Core Data · SwiftData · Keychain · XCTest · crash reporting

English — Intermediate (comfortable with technical calls)

Education

Donetsk State University of Management · Bachelor's degree, Production Management

Experience

Senior iOS Engineer · GlobalLogic

Jan 2026 – Jun 2026 · Kyiv, Ukraine · Remote

Apple Watch Voice AI — R&D project

- Built watchOS voice conversation flows and worked on an iPhone relay for realtime WebSocket/audio communication.
- Integrated watchOS/iPhone communication, audio handling, and App Intents under watchOS runtime and TestFlight constraints.
- Contributed iOS engineering feedback while beta-testing VelocityAI through a sample product cycle from idea to release.

Swift, SwiftUI, WatchConnectivity, WebSockets, AVFoundation, AVAudioEngine, App Intents, Swift Concurrency

Senior iOS Engineer · PASHA Holding (Birmarket)

Apr 2022 – Jan 2026 · Kyiv, Ukraine · Remote

Birmarket — online marketplace & loyalty

- Owned Premium Subscription on iOS and a shared Premium Subscription SDK with per-host configuration across multiple host applications.
- Designed and implemented a unified analytics API in the loyalty SDK, routing events to six providers including Firebase, AppsFlyer, Amplitude, Mixpanel, PostHog, and Sentry.
- Contributed to consumer marketplace flows across catalog, loyalty, and ordering in a product with 500,000+ SKUs and 900+ pickup points.

Swift, SwiftUI/UIKit, SPM, Swift Concurrency, Combine

iOS Engineer · Dodo Brands (Drinkit)

Feb 2020 – Feb 2022 · Kyiv, Ukraine · Remote

Drinkit — consumer coffee ordering app

- Shipped Drinkit from MVP to the App Store as part of a three-person iOS team.
- Implemented consumer ordering flows including pre-order, customization, Apple Pay with loyalty, and pickup slot tracking.

Swift, UIKit, Apple Pay, PassKit, AVFoundation

iOS Developer · SOLVVE

Jan 2019 – Feb 2020 · Remote

PLAYHERA — esports & gaming tournaments

- Built team creation and management flows for a production esports application.
- Worked commercially with RxSwift in an existing UIKit codebase, implementing and maintaining reactive feature flows.

Swift, UIKit, RxSwift, REST

Earlier iOS experience · 2013–2018

Product and client iOS development across blockchain, commercial real estate, healthcare, urban mobility, and messaging (Electus · GBKSoft · Amcon Soft · Tap4Parking · iCenter). Shipped Swift and Objective-C applications with UIKit, REST integrations, Core Data, SceneKit, CoreLocation/MapKit, and App Store delivery.
