| Summary 📋

12+ years of iOS development, including 4+ years in Senior roles. Voice AI assistant on Apple Watch; Premium Subscription technical lead on marketplace loyalty.

| Skills ✂️

Swift · SwiftUI · UIKit · Swift Concurrency · Combine · WatchKit · Apple platform SDKs

| Experience 📁

● **GlobalLogic** Kyiv, Ukraine · Remote

Senior iOS Engineer · Jan 2026 – Jun 2026

Apple Watch Voice AI — R&D project

- Built a production watchOS voice AI app — full on-watch flows, not a thin remote UI.
- Implemented iPhone as WebSocket relay (unavailable on Watch): Watch ↔ iPhone channel for audio and shared state with a server-side AI agent, including deduplication across devices.
- Shipped internal TestFlight builds within watchOS constraints (background, audio sessions, connectivity).

Swift · WatchKit · SwiftUI · WebSockets · WatchConnectivity · AVFoundation

● **PASHA Holding** Kyiv, Ukraine · Remote

Senior iOS Engineer · Apr 2022 – Jan 2026

Birmarket — online marketplace & loyalty · Loyalty squad

- Shipped core marketplace commerce in a production online store — catalog, search, cart, checkout, and orders — across App Store releases.
- Technical lead on Premium Subscription — full cycle: feature definition through implementation, TestFlight, debug, and App Store release (cashback/bonus logic).
- Migrated Premium from the main app into an independent SDK module with per-host-app configuration inside the shared loyalty platform.

Swift · SwiftUI · UIKit · SPM · URLSession

● **Dodo Brands** Kyiv, Ukraine · Remote

iOS Engineer · Feb 2020 – Feb 2022

Drinkit — coffee ordering app

- Owned ordering and drink-customization flows; shipped App Store releases on a three-person iOS team.
- Delivered checkout with Apple Pay and loyalty integration in production.

Swift · UIKit · SPM · WebSockets · Apple Pay · URLSession

Earlier career 📌

2014–2017: junior iOS in product companies and indie App Store apps — full timeline at vil4max.github.io.
